

Is Your Child Ready for Kindergarten?

New Junior Kindergarten Program at Creative Playrooms

Prepped for Success

At Creative Playrooms, we want every child to love school...and this means ensuring they're fully ready to succeed. If you have a four- to five-year-old who's getting ready for Kindergarten, we're now offering a great in-between step for children who:

- Have completed PreK (or are in-between PreK/K academically) but miss the age cutoff;
- Would benefit from a more challenging curriculum following an assessment; or
- Needs an extra boost before starting Kindergarten.

FOCUS ON ACADEMICS

Junior K provides children critical academic building blocks that align with state learning standards

STRENGTHEN SCHOOL READINESS

Programs like Junior K give children the tools they need to succeed throughout their schooling career

GROW SOCIAL-EMOTIONAL SKILLS

Students with an extra year to focus on developmental skills (e.g., listening, following directions, handling emotions) gain long-lasting benefits

ENJOY OUR OPEN-DOOR POLICY

We encourage parents to partner with teachers, partake in regular communications, see what children are working on, or help with special activities
